

Taylor Townsend House at Frost
Front & Back-

AT REST

After a brief illness of eight days, William Taylor Townsend passed to his final reward on Sunday March 20, 1921. Just as the sun was setting his golden rays into the new day, his spirit winged its way into the presence of his Master. Mr. Townsend was born February 10, 1847, making his age 74 years, 1 month and 20 days. He was a loyal Christian. His one delight was to see the church of Christ prosper, and he did all in his power to make it so—giving of his time, his substance and his earnest prayer. Such loyalty I have never known. Uncle Taylor, as he was known by his host of friends, never tired in the work of his Master. The home has lost a kind and true husband, the community a good citizen and the church a good friend. Our loss is heaven's gain. This saint is at rest in the Lord. In the thirty years the writer has been with him he has lived in the hope of joining that family in the home described in John 14. "I am going to join that glorious band" were his last words.

After a brief service conducted by his pastor Rev. Palmer Kobank, the body was laid to rest in the family graveyard on Monday, in the presence of a host of friends and neighbors. We will miss him.

Notice of right to appeal

Appeal from classification by local board must be made within 10 days after the mailing of this notice. You may file a written notice of appeal with the local board, or you may go to the office of the local board and sign appeal form on back of Selective Service Questionnaire (Form 40).

Within the same 10-day period you may file a written request for personal appearance before the local board. If this is done, the time in which you may appeal is extended to 10 days from the date of mailing of a new Notice of Classification (Form 57) after such personal appearance.

If an appeal has been taken and you are classified by the board of appeal in either Class I-A, I-A-O, or IV-E and one or more members of the board of appeal dissented from such classification, you may file appeal to the President with your local board within 10 days after the mailing of notice of such classification.

For advice, see your Government appeal agent.

The law requires you: (1) To keep in touch with your local board; (2) to notify it of any change of address; (3) to notify it of any fact which might change your classification; (4) to comply with the instructions on the notice of classification part of this form.

The Monongahela National Forest In Cooperation With

The W. V. Dept. Of Natural Resources

Celebrates . . .

A MESSAGE FROM THE FOREST SUPERVISOR

All of the Monongahela National Forest employees would like to take this opportunity to honor the Civilian Conservation Corps on its 50th Anniversary. Examples of CCC projects, such as picnic shelters, roads, trails, and thousands of acres of plantations, can be seen everywhere in the Forest.

We are thankful for the contributions to conservation and human development provided by the CCC in honor of this 50th Anniversary. We hope alumni of the CCC will visit old projects and see for themselves the long term benefits of their labors.

RALPH F. MUMME
Forest Supervisor

50th. Anniversary

MESSAGE FROM THE DIRECTOR OF DNR

On behalf of the West Virginia Department of Natural Resources, I am pleased to take this opportunity to recognize one of the most important programs in the history of our state and nation, the Civilian Conservation Corps. On this the fiftieth anniversary of the CCC, we should pause and give thanks to those individuals who were in large part responsible for the founding and development of West Virginia's state parks and forests. Many of the cabins, campgrounds, fire towers and roads built by enrollees in the CCC program are still in use today.

It is my hope that alumni and friends of the CCC will join us for the official 50th anniversary celebration of this significant program which contributed so greatly to the conservation of the natural resources of the State of West Virginia.

Sincerely,

David C. Callaghan
Director

1933 - 1983

Planting trees in 1933 has made the Monongahela rich in timber resources today.

Construction of barracks at Camp Leadmine, F-10.

WORK PROJECTS

Work projects during the CCC's nine year history were as varied as the men doing them. Originally, the projects were confined to forestry, park development, and soil erosion control, but later they included disaster relief, historical restoration, and national defense.

The variety and amount of work by the C.C.C. is so great that there is not enough space in this publication to list them all. For an idea of the magnitude of work done, here is a sampling of the work done between 1933 and 1942. 3,400 Fire Lookout Towers were constructed, more than 6 million man-days were spent fighting forest fires, 13,100 miles of foot trails were constructed, and more than 2 billion trees were planted.

BACKGROUND

When Franklin D. Roosevelt became President in 1933, the Nation was still in the grip of a serious economic depression. This economic depression had lingered on after the stock market crash of 1929 and times were tough.

One of his first acts was to ask Congress for a large appropriation for emergency conservation work. This was quickly granted. This emergency conservation work fund was dubbed ECW for short.

He then established a corps of young men to perform conservation work and called them the Civilian Conservation Corps. However, it was not until June 28, 1937 that Congress enacted legislation to officially establish the Civilian Conservation Corps. This was Public Law No. 163 of the 75th Congress. Section 4 of this act summed up the legislation by stating: "There are hereby transferred to the corps all enrolled personnel, records, papers, property, funds, and obligations of the Emergency Conservation Work established under the act of March 31, 1933 (48-Stats. 22) as amended."

The purpose was to give these young men employment, get them off the streets and to help the families who were in financial difficulties and at the same time get much needed conservation work done in National, State and private forests, National Parks, and other public areas. This organization of young men has been considered to be the finest emergency agencies ever established.

Fine original construction can be seen in the existing Stuart Picnic Shelter built by the CCC in 1936.

STILL EXISTING TODAY

The CCC program is gone but not forgotten. Their experience and work are not just memories. The CCC's have left their mark forever, in the improved natural resources and projects built by them that are still standing today.

Blue Bend Picnic Shelter.

A Proclamation.

Whereas, by the Act of Congress approved the 31st day of December, last, the State of West Virginia was declared to be one of the United States of America, and was admitted into the Union on an equal footing with the original States in all respects whatever, upon the condition that certain changes should be duly made in the proposed Constitution for that State;

And, whereas, proof of a compliance with that condition as required by the Second Section of the Act aforesaid, has been submitted to me;

Now, therefore, be it known, that I Abraham Lincoln, President of the United States, do, hereby, in pursuance of the Act of Congress aforesaid, declare and proclaim that the said act shall take effect and be in force, from and after sixty days from the date hereof.

In witness whereof, I have hereunto set my hand

and caused the Seal of the United States to be
affixed.

Done at the city of Washington, this
twentieth day of April, in
the year of our Lord one
thousand eight hundred
and sixty-three, and of the
Independence of the United
States the eighty-seventh.

Abraham Lincoln

By the President:

William H. Seward,
Secretary of State.

Doing time on Kennison Mountain Pocahontas County's forgotten prison farm

By Maureen Crockett

If you turn left down the Scenic Highway near the Cranberry Visitor Center in Pocahontas County, the spectacular view includes vast stands of spruce trees. Prison inmates planted 22,000 of them 40 years ago. For here on this mountain there was once a federal prison with no locks, a place where inmates kept their dignity and humanity, where prisoners and guards had respect for each other. But Mill Point Federal Prison Camp, a success story in a field where success stories are too few, has been closed now for 25 years.

The prison began in September 1938, 17 miles southwest of

Marlinson. This wild area is part of the Monongahela National Forest, which had no road between Mill Point and Richwood until the prisoners came to build one for the Federal Bureau of Public Roads. Once Route 39, the road is now part of the Highland Trail.

While the inmates and officers lived in tents at an elevation of 3,500 feet and slowly built the road, the federal government decided to turn the temporary camp into a permanent minimum security prison. Leaving those tents for permanent quarters was a happy move because winters are hard in Pocahontas County, with heavy doses of rain, snow, sleet, dense

fog, and high winds. One of the early superintendents, Milton Kennedy, wrote, "We're on the Arctic island in West Virginia." In the winter of 1944 almost five feet of snow fell. Even with a snowplow, the prison was marooned sometimes for days until the roads were cleared.

The little valley near the Cranberry Glades soon filled, with a dining hall, three dormitories, a warehouse, boiler plant, school, administration building, infirmary, sawmill, and craft shop. Nine houses for employees and a community building came next, up the hill at the edge of the forest.

This prison in the woods would have no fences, no walls, and minimum supervision. Inmates knew to stay inside the white posts spaced every 40 feet around their legal perimeter. Each had a "Keep Inside" sign, and that was enough. In winter the posts were covered with snow, so the inmates used their judgment. The clientele here were obviously not fiends, murderers, and world-class drug dealers. Most were essentially good people who somehow had run afoul of federal law.

Charles C. Farmer, known as Chester by his friends, retired now and living at the bottom of Kennison Mountain in Hillsboro with wife Virginia, came to Mill Point after World War II. His New Martinsville family are proud descendants of West Virginia's first white settler, Morgan Morgan. "If you strain a lot," as Chester says. Because he was a veteran, Chester got preference in housing and moved Virginia and their two daughters, Anne, 8, and Edith, 6, to the prison at war's end in 1945.

Mill Point, built for 300 inmates, almost always ran full. Thirty employees ran the prison and costs back then were low; during World War II the annual budget was \$124,569. Most inmates stayed only a short time, six to 18 months, and the government also

Normal routine had prisoners rising at 6 a. m., dressing, eating, and then working from 8 to 4:30 p. m. After work they could rest or enjoy outdoor activities. After supper they had to be indoors, either in the dorm, taking classes, making crafts, visiting the library or writing home.

After 10:30, the guard on night shift found he had more time than other employees, so he inspected the inmates' mail. No letter was cut up or blacked out, but if an incoming message concerned home problems that might cause grief or anger the parole officer got to see the letter so he could discuss the problem with the inmate. No letter was destroyed but there was political censorship and that caused trouble during the Second World War, especially with Jehovah's Witnesses who opposed being forced to fight by the United States government.

Newcomers to the prison in the woods often did not realize what a progressive place it was, and other inmates did not always help them find out. The prison well, dug up the hill above the dorms, had a white picket fence around it. When new inmates asked what the fence was for, they were told, "That's our graveyard. If you die, you still do your time. They put you up there 'til' your time is up."

Mt. Zion Church

In 1808, Mt. Zion Church was built on land belonging to Felix Grimes, who settled in the Hill Country in the year of 1770. The deed was given for the church on September 6, 1836, by Charles Grimes (son of Felix) and Martha, his wife, to James Wanless, William Moore, John Wanless, James Grimes, John Sharp, Henry Arbogast and John Waugh - trustees. Consisting of two acres and 51 poles, it was a part of the survey of 510 acres granted to Felix Grimes by patent and devised to the said Charles Grimes in his will. They sold it to the trustees for five dollars.

The deed reads thus - Together with all of the wood waters there to belonging to the above mentined and described, price of land to the above named trustees and their successors in office forever. That shall erect or cause to be erected a house. A place to worship of God through the ministry of the Methodist Episcopal Church in the United States of America. According to the rules of desciple ship.

I have been told that a quarterly Conference was held at the said church in 1840. In a report to Conference by the trustees, Martin Dilley, Washington Moore and Beverley Waugh, they stated that the building was completed to the ceiling, the cost had been \$300.00

and that \$50.00 should finish it. Hanson Dilley bought the stone, paid \$5.00 for it. Preston Moore, Harvey Curry and Moses Moore were appointed to fill vacancies which had occurred. This church originally had a gallery for the use of the slaves. This was an active church until about 1957.

Approximately sixty years ago the small windows were changed and the outside covered with tin. In the 1950's the wooden steps were replaced with concrete steps. Also, the roof and inside and outside of the church were painted. In the 1970's, the foundation was repaired. Today the Mt. Zion church is used for funerals, homecomings, or services from time to time. The cemetery which surrounds the church is still being used.

The above was taken from a bulletin on the 150th Anniversary in 1986.

This church is being restored as nearly as possible to the original log church as a landmark in the community, in honor of our forefathers.

This is being done by free labor and donations.

Anyone wishing to help may send a donation to Mae Corbett, Rt. 1, Box 130A, Dunmore, WV 24934.

Make checks payable to Mt. Zion Building Fund.
